## SERVICES OVERVIEW

### Therapeutic Behavioral On-Site (TBOS) Services

- Weekly individual therapy sessions in the home and school setting provided by a Masters level therapist
- Includes both the client and family in developing a unique treatment plan to address specific, client-centered goals

### Targeted Case Management (TCM)

- Monthly school and home visits to access, plan, link, monitor, and advocate supportive services for the child
- Individualized support to the child and family with community linkage to improve quality of mental health and family dynamics
- Coordination with other agencies such as Department of Children and Families (DCF), Department of Juvenile Justice (DJJ), mental health providers, and schools in order to ensure continuity of care

### Parenting Support (16 sessions over 4-6 months)

- Weekly one-on-one supervision with parents to establish and strengthen positive, appropriate parenting skills for children diagnosed with a mental illness and to address caregiver self-care/compassion fatigue
- Weekly school or home visits with the child to provide mentoring support
- Coordination with child's therapist and targeted case manager to ensure continuity of care

## BENEFITS OF THERAPEUTIC SUPPORT

- Evidence-based services with proven success
- Improved advocacy for mental health needs
- Multi-disciplinary approach with child, parent, and teacher involvement
- Strengthened emotional intelligence and regulation of behavior
- Increased coping skills to improve both academic and social interactions
- Reduced recidivism of Baker Acts

Resiliency Team Services can help with:

- Poor listening/communication
- Disrespectful behavior
- Lack of following directions
- Verbal/physical aggression
- Truancy

**Services are provided at no direct cost to the individual.**
