**Income Eligibility Guidelines**

15,650

The U.S. Dept. of Health and Human Services issue the poverty guidelines each year in the Federal Register. These guidelines are used by Peace River Center for determination of a client's financial eligibility to pay for the services they receive in our Clinical and Medical Outpatient programs.

This scale represents 150% - 300% and above of the poverty level based on family size in annual figures. This table will be used to determine the financial eligibility for those seeking services who are uninsured and do not qualify for coverage under any current special grants or contracts.
